## ABOUT US

TONZE was founded in 1996 and listed on the A-share stock market in China in 2015. It is a modern comprehensive enterprise integrating research, production and sales.

Since its establishment, Tonze has insisted on carrying forward the culture of "Food Fashion" and advocating exquisite life and healthy life as its own responsibility, and is committed to the research and development and innovation of small health-care appliances. Persevering for 27 years, Tonze has won numerous domestic and international awards, and a number of national patent certificates, and participated in the formulation of national industry standards. Tonze is the founder of the industry standard for health care appliances, an innovator of technology, and a benchmark brand of health care small household appliances in China.

Not limited to health home appliances, Tonze also takes a high-level view of the general trend and actively embraces the changes of the times. In 2016, Tonze merged and acquired Jiangsu Xintai Material Technology Co., Ltd. to tap the potential of the new energy industry and seek new growth for the company. The new enterprise system with diversified development such as manufacturing, new energy, electronic medical equipment, helps Tonze continue to climb new journeys.

Tonze is mainly engaged in home appliances, including rice cookers, electric slow cooker, electric hot pots, electric health pots, medicinal pots, electric kettles, etc, which are sold in more than 20 countries and areas in the world.

1996 TONZE established.
